RE: TSD Notification without  
Part A Application

Dear Notifier:

The United States Environmental Protection Agency (U.S. EPA) has received your notification of hazardous waste activity. On that form, by checking the "treat/store/dispose" (TSD) box, you indicated that you are a hazardous waste management facility (HWMF). To date, however, we have no record of having received Part A application for a hazardous waste permit which is required for all HWMFs.

Federal regulations require owners and operators of existing HWMFs (installations which treat, store, or dispose of hazardous waste) to have submitted a Part A permit application to the Regional Administrator by November 19, 1980, in accordance with 40 CFR 122.22. This requirement applied to HWMFs which were in existence on or before November 19, 1980. New facilities (those established after November 19, 1980) are required to submit Part A and Part B of their permit application, and receive a Resource Conservation and Recovery Act (RCRA) permit before beginning physical construction.

If your facility treats, stores, or disposes of hazardous waste, then your facility is operating without a hazardous waste permit, in violation of Section 3005 of RCRA, as amended. This violation is considered serious by the U.S. EPA, and may subject you to Federal enforcement under Section 3008 of RCRA for past and continued non-compliance.

Please submit your completed Part A application to the address below within fifteen days of receipt of this letter:

RCRA ACTIVITIES  
P. O. Box A3587  
Chicago, Illinois 60690-3587

We are aware that some hazardous waste handlers may have marked the TSD box on the notification form as a precaution or as a result of misunderstanding the May 19, 1980, hazardous waste regulations. If you notified us as a TSD in error, or if your status as a treatment, storage, or disposal facility has changed, please advise us in writing immediately.

Please contact Arthur Kawatachi of my staff at (312) 353-2197, if you have any questions regarding this letter.

Sincerely yours,

Karl J. Klepitsch, Jr., Chief  
Waste Management Branch

Attention: Mr. Arthur Kawatachi

Subject: Hazardous Waste Notification - Barton Landfill

Dear Mr. Kawatachi

My name is Richard A. Covell, Senior Counsel to SCA Services, Inc. ("SCA"), the parent company of SCA Services of Illinois, Inc., with a facility located at Highway 11 and Madison, East, Roxana, Illinois. SCA recently received the attached inquiry from your office regarding this facility's status.

The above mentioned facility filed the Notification of Hazardous Waste Activity Form with the US EPA as a precautionary measure in August of 1980 because the regulatory atmosphere was not clear as to the identification of hazardous waste material and also because of the uncertainty of the scope and details of the final rules concerning hazardous waste which were to become effective on November 19, 1980. Please be advised that the aforementioned facility does not generate, transport, treat, store, or dispose of hazardous waste.

Should you require further information, please contact me.

Very truly yours,

Richard A. Covell
